

# Performance analysis: what happened

A clear view of performance changes, what drove them, and which audience moved.

## Performance overview

REVENUE

20.7k EGP

Previous: 31.0k EGP

-33%

SPEND

7,815 EGP

Previous: 8,537 EGP

-8%

ROAS

2.65x

Previous: 3.63x

(3.63x → 2.65x)

-27%

⚠️

This is real performance, not budget. Spend moved -8% but ROAS went 3.63x to 2.65x, and that is worth 7,695 EGP of the move.

## Detailed metrics matrix

every number, and what it was in the previous period

was 12.5%

+16%

## Revenue growth attribution

these two add to the revenue change exactly. there is no third thing

### Revenue -10.3k EGP

(change from the previous period)

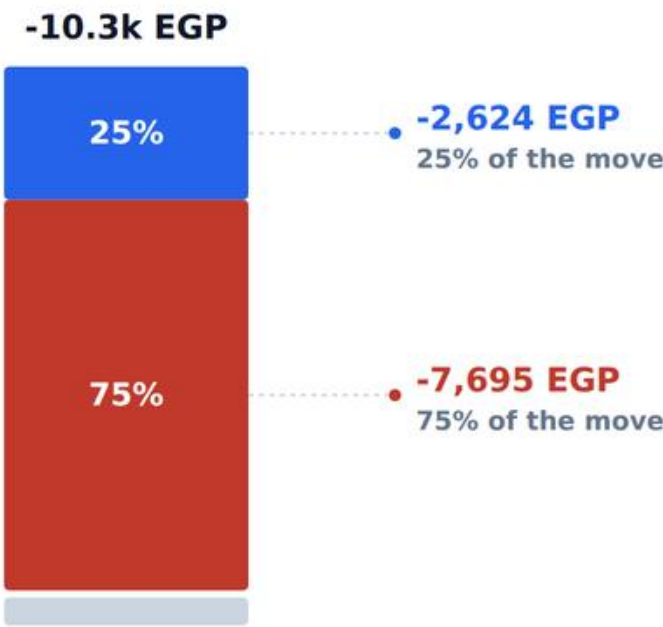

- Budget impact

-2,624 EGP | 25% of move

Spend: 8,537 → 7,815 (-8%)
- Account performance impact

-7,695 EGP | 75% of move

ROAS: 3.63x → 2.65x (-27%)

★ The move is mostly the ACCOUNT. This is real performance, not money.

## Audience segments

spend and attributed revenue vs the previous period

✓ These beat the account's 4.22x. Raise the budget on the ones with frequency headroom; the ones already fatiguing need fresh creative, not more money.

# The ads — keep or kill

An ad has no budget field. It gets kept, refreshed, or switched off.

## Good ads — keep them running

the big number is yesterday. the small one under it is the 7 day benchmark. the VERDICT is always a 7 day call — one day never kills an ad

| AD                                                                                                                                                                      | SPEND                                                                     | ROAS                                                                        | CPP                                                                   | CVR                                                                        | ATC                                                                        | FREQ                                                                    | PURCHASES                               | WHAT TO DO                                                                                          |

The budget move · in EGP per day, not in percentage points

MOVE

313 / day

FROM

Engaged (2.16x)

TO

New audience (2.88x)

New audience earns more budget: it returns 2.88x against the account's 2.65x at frequency 1.17, so it still has room. Engaged gives 2.16x at frequency 1.30. budget up:

Expected +225 revenue / day at the SAME total budget.

Daily memo. Yesterday vs the day before. One day is noisy, treat it as a signal, not a verdict.

Audience is Meta's own breakdown by audience segment.

# Creative fatigue and hook rate

The week tells you if it is decaying. Today tells you if it is an anomaly. Both are on every row.

## The state of the creative

of 19 ads with real money behind them

FATIGUED

0

FATIGUING

1

BEHIND TIRING CREATIVE

1,149 EGP / day

Hook rate is 3 second views over impressions and only means anything on VIDEO. The account's video ads run at 16.4%. Catalogue and image ads show n/a.

## Every ad with real money behind it

Δ = THE WEEK: this ad's last 7 days vs the 7 before · TODAY = that same ad against its own last 7 days

|                                                                                                                                                                |                     |                    |                                   |                                      |                                  |                                   |                                                                                                     |                                   |

Read the two together. A red weekly Δ with a NORMAL today is a real slide. A green week with a BELOW BAND today is one bad day, not a dying ad, and killing it would be a mistake.

## The five fatigue tests · this is the whole rulebook

|                                                                                                                                                                                                                                                                                                                                                                     |                                                 |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------|
| 1. frequency over 3.0                                                                                                                                                                                                                                                                                                                                               | the same people are seeing it again             |
| 2. outbound CTR down over 15%                                                                                                                                                                                                                                                                                                                                       | they are reacting to it less than they did      |
| 3. CPM up over 15%                                                                                                                                                                                                                                                                                                                                                  | the auction is charging more to keep showing it |
| 4. hook rate down over 15%                                                                                                                                                                                                                                                                                                                                          | the first 3 seconds stopped stopping them       |
| 5. CPP up over 20%                                                                                                                                                                                                                                                                                                                                                  | each purchase now costs more than it did        |
| <div><div>= 3 or more of the five fire and FATIGUED frequency is over 3.0, OR frequency is over 4.0 with 2 firing.</div><div>= frequency over 4.0 on its own: the same people are seeing it again whatever else is true.</div><div>= 2 fire. FATIGUING</div><div>= 1 or none. A catalogue ad has no hook, so only four of the five can ever fire on it.</div></div> |                                                 |

# Creative — what to make next

How many you launched, how many won, the criteria, the winners by name, and what is burning out.

☆

How many creatives to launch

counted on ads you actually LAUNCHED in the last 30 days

✎

LAUNCHED · 30D

158

Previous: new ads created in the last 30 days

📅

JUDGED

12

Previous: 146 still gathering data

★

WINNERS

4

Previous: 4 cleared 4.79x · 3 only matched the account

🎯

HIT RATE

33%

Previous: launch 3 to get 1 · 9 to get 3

📌

THE CRITERIA, IN FULL. An ad is JUDGED once it has spent at least 1,500 EGP and taken at least 5 purchases inside the 30 days. It is a WINNER only if its ROAS is at least 19% above the account average — the account ran 3.99x over those 30 days, so the winner bar is 4.79x. Beating the account by 1% is not a winner, it is a rounding error, and 3 ad(s) landed in exactly that gap this month. Catalogue and DPA are excluded from both sides: a product feed is not a creative you shot.

⚠️

At a 33% hit rate you must launch 3 new creatives for the next winner and 9 for three. You launched 158 in the last 30 days.

🎯

The winning creatives — last 30 days, by name

cleared 4.79x (19% above the account's 3.99x) on 1,500+ spend and 5+ purchases

Winners are the 7 creative ads that beat the account's 4.22x over the last 7 days on at least 3 purchases. Losers are the 2 that did not. No catalogue on either side.

✎

The brief · give this to the editor

✓

Brief 3 new videos off NEW ARRIVALS NEW VIDEOW CUTSWIMWEAR BIRDNEST. It is the highest revenue ad that beats the account (6.31x vs 4.22x).

✓

The CTA is earning the click: winners run 2.94% outbound CTR against 2.52% on the losers. Reuse the same offer wording.

✓

Winners convert 3.21% of clicks, losers 2.10%. Send the new cuts to the same landing page.

✓

Change the body, the angle and the opening line. Do not re-upload the same video with a new name, Meta will treat it as the same creative and it will fatigue on the same curve.

🕒

Creatives that are burning out — replace these first

these are the slots your new creatives are for

|                                                                                                                                                  |                     |                    |                                   |                                     |                                  |                                  |

⚠️

FATIGUED = 3+ of the five tests fire and frequency is over 3.0, or frequency is over 4.0 with 2 firing. SATURATED = frequency over 4.0 on its own. FATIGUING = 2 fire.

📅

Daily memo. Yesterday vs the day before. One day is noisy, treat it as a signal, not a verdict.

👤

Audience is Meta's own breakdown by audience segment.

# General observations

The account in plain sentences, with the money attached to each one.

## General observations

what a media buyer would say out loud after reading the rest

**The move was REAL PERFORMANCE. Revenue -10.3k EGP: -2,624 of it is the budget you set, -7,695 is the account itself. Efficiency got worse (ROAS 3.63x to 2.65x).**

**No ad is fatigued or saturated. Nothing in the account is being shown to the same people over and over, so frequency is not what is holding you back.**

**Biggest opportunity: NEW ARRIVALS NEW VIDEO W CUTSWIMWEAR BIR.... It returns 6.31x against the account's 4.22x at frequency 1.45. Take it from 720 to 863 a day: that is 144 more spend for about 908 more revenue a day.**

**The money is in the wrong audience. New audience returns 2.88x but only takes 72% of spend, while Engaged returns 2.16x on 20% of it. Move budget from the second to the first.**

**Creative supply. You launched 158 ads in 30 days, 12 got enough data to judge, 4 beat the account. That is a 33% hit rate, so the next winner costs about 3 launches. Anything less than that is not a creative plan.**

**Margin and LTV are unknown from ad data. Nothing above assumes them.**
