The criteria · this is the whole rulebook

SCALE

• ROAS above the account

• CPP below the account

• frequency under 2.5

• at least 5 purchases

• spend over 1,500

HEADROOM

• ROAS above the account

• frequency under 2.0

• CPP stable or better

• no decline in the last 7 days

SATURATED

• frequency over 4.0

• outbound CTR falling

• CPM rising

• CPP rising

CUT

• ROAS below 60% of the account

• CPP above the account

• at least 5 purchases of evidence

An ad must pass EVERY line of a label to get it. SATURATED needs 3 of 4 plus frequency over 4.0. CATALOGUE and DPA are never counted as creative winners.

The budget — on the ad sets

Budgets move on ad sets. Every ad set ranked against the account, above and below.

The budget board, per day

ad set level, because that is where the budget field is

The figure consists of three cards with a light gray background and rounded corners. Each card has a small icon in the top left corner: a green up arrow, a blue down arrow, and a purple line graph icon. The first card is titled 'BUDGET TO ADD' and shows '+2,882 / day' in large bold black text, with 'Previous: across 4 ad sets' in smaller gray text below. The second card is titled 'BUDGET TO FREE' and shows '-9,951 / day' in large bold black text, with 'Previous: across 3 ad sets' in smaller gray text below. The third card is titled 'ACCOUNT ROAS' and shows '3.74x' in large bold black text, with 'Previous: the bar every ad set is judged against' in smaller gray text below.

Metric	Value	Previous
Budget to Add	+2,882 / day	across 4 ad sets
Budget to Free	-9,951 / day	across 3 ad sets
Account ROAS	3.74x	the bar every ad set is judged against

 You cannot set a budget on an ad. Every number below is an AD SET daily budget, taken from Meta. Where the campaign is CBO the ad set has no budget field and the change is made on the campaign, named on the row.

↑ Raise these ad set budgets

this is the number to change

Read the two together. A red weekly Δ with a NORMAL today is a real slide. A green week with a BELOW BAND today is one bad day, not a dying ad, and killing it would be a mistake.

The five fatigue tests · this is the whole rulebook

1. frequency over 3.0	the same people are seeing it again
2. outbound CTR down over 15%	they are reacting to it less than they did
3. CPM up over 15%	the auction is charging more to keep showing it
4. hook rate down over 15%	the first 3 seconds stopped stopping them
5. CPP up over 20%	each purchase now costs more than it did

= 3 or more of the five fire and FATIGUED frequency is over 3.0, OR frequency is over 4.0 with 2 firing.

= frequency over 4.0 on its own: the same people are seeing it again whatever else is true.

= 2 fire. FATIGUING

= 1 or none. A catalogue ad has no hook, so only four of the five can ever fire on it.

Creative — what to make next

How many you launched, how many won, the criteria, the winners by name, and what is burning out.

JUDGED

34

Previous: 127 still gathering data

★ WINNERS

1

Previous: 1 cleared 5.14x · 3 only matched the account

🎯 HIT RATE

3%

Previous: launch 34 to get 1 · 102 to get 3

📖

THE CRITERIA, IN FULL. An ad is JUDGED once it has spent at least 1,500 EGP and taken at least 5 purchases inside the 30 days. It is a WINNER only if its ROAS is at least 19% above the account average — the account ran 4.28x over those 30 days, so the winner bar is 5.14x. Beating the account by 1% is not a winner, it is a rounding error, and 3 ad(s) landed in exactly that gap this month. Catalogue and DPA are excluded from both sides: a product feed is not a creative you shot.

⚠️

At a 3% hit rate you must launch 34 new creatives for the next winner and 102 for three. You launched 161 in the last 30 days.

🎯

📖

Winners are the 22 creative ads that beat the account's 3.74x over the last 7 days on at least 3 purchases. Losers are the 33 that did not. No catalogue on either side.

📝

The brief · give this to the editor

✓

Brief 3 new videos off all products retention. It is the highest revenue ad that beats the account (10.46x vs 3.74x).

✓

Hold the middle. Winners keep 32% of the 3 second viewers to a thruplay, losers keep 28%. Cut the setup, get to the product faster.

✓

The CTA is earning the click: winners run 4.00% outbound CTR against 3.56% on the losers. Reuse the same offer wording.

✓

Winners convert 1.11% of clicks, losers 0.61%. Send the new cuts to the same landing page.

✓

Change the body, the angle and the opening line. Do not re-upload the same video with a new name, Meta will treat it as the same creative and it will fatigue on the same curve.

🕒

Creatives that are burning out — replace these first

these are the slots your new creatives are for

⚠️

FATIGUED = 3+ of the five tests fire and frequency is over 3.0, or frequency is over 4.0 with 2 firing. SATURATED = frequency over 4.0 on its own. FATIGUING = 2 fire.

General observations

The account in plain sentences, with the money attached to each one.

General observations

what a media buyer would say out loud after reading the rest

The move was **REAL PERFORMANCE**. Revenue -219.7k EGP: -101.7k of it is the budget you set, -118.0k is the account itself. Efficiency got worse (ROAS 4.81x to 4.18x).

3 ads are fatigued or saturated and they are carrying 4,917 EGP a day. The worst is all products retention at frequency 11.71. Refresh the creative or the audience; more budget on a saturated ad buys repeats, not customers.

Biggest opportunity: MTG Scaling. It returns 7.01x against the account's 3.74x at frequency 1.77. Take it from 1,038 to 1,245 a day: that is 208 more spend for about 1,455 more revenue a day.

Biggest leak: nesma the mommy eats strollers. 0.69x against the account's 3.74x. Cutting it frees 2,652 a day; redeployed at the account rate that is +8,087 a day net.

The money is in the wrong audience. Existing customers returns 9.09x but only takes 8% of spend, while New audience returns 3.75x on 38% of it. Move budget from the second to the first.

Creative supply. You launched 161 ads in 30 days, 34 got enough data to judge, 1 beat the account. That is a 3% hit rate, so the next winner costs about 34 launches. Anything less than that is not a creative plan.

Margin and LTV are unknown from ad data. Nothing above assumes them.

3-day memo. Last 3 days vs the 3 before.

Audience is Meta's own breakdown by audience segment.
