TODAY +453% vs its own 7d avg
revenue 3,529 vs 638 / day ·
OUTSIDE its normal band

PASS ROAS above the account (5.32x) (7.77x) · PASS frequency under 2.0 (1.4) · PASS at least 5 purchases (6)

The criteria · this is the whole rulebook

SCALE

· ROAS above the account

· CPP below the account

· frequency under 2.5

· at least 5 purchases

· spend over 1,500

HEADROOM

· ROAS above the account

· frequency under 2.0

· CPP stable or better

· no decline in the last 7 days

SATURATED

· frequency over 4.0

· outbound CTR falling

· CPM rising

· CPP rising

CUT

· ROAS below 60% of the account

· CPP above the account

· at least 5 purchases of evidence

An ad must pass EVERY line of a label to get it. SATURATED needs 3 of 4 plus frequency over 4.0. CATALOGUE and DPA are never counted as creative winners.

Budgets move on ad sets. Every ad set ranked against the account, above and below.

ad set level, because that is where the budget field is

 You cannot set a budget on an ad. Every number below is an AD SET daily budget, taken from Meta. Where the campaign is CBO the ad set has no budget field and the change is made on the campaign, named on the row.

this is the number to change

↓ **Every ad set BELOW the account — cut candidates** sorted worst first. these are dragging the account down, in order

⚠️ These ad sets return under the account's 5.32x. Together they are bleeding about 1,456 EGP a day against simply running that spend at the account rate. Cut the budget or turn off the worst ads inside them.

sorted best first. these are carrying the account, give them more room

✔ These beat the account's 5.32x. Raise the budget on the ones with frequency headroom; the ones already fatiguing need fresh creative, not more money.

The ads — keep or kill

An ad has no budget field. It gets kept, refreshed, or switched off.

Good ads — keep them running

the big number is last 3 days. the small one under it is the 7 day benchmark. the VERDICT is always a 7 day call — one day never kills an ad

Read the two together. A red weekly Δ with a NORMAL today is a real slide. A green week with a BELOW BAND today is one bad day, not a dying ad, and killing it would be a mistake.

The five fatigue tests · this is the whole rulebook

1. frequency over 3.0	the same people are seeing it again
2. outbound CTR down over 15%	they are reacting to it less than they did
3. CPM up over 15%	the auction is charging more to keep showing it
4. hook rate down over 15%	the first 3 seconds stopped stopping them
5. CPP up over 20%	each purchase now costs more than it did

= 3 or more of the five fire and FATIGUED frequency is over 3.0, OR frequency is over 4.0 with 2 firing.

= frequency over 4.0 on its own: the same people are seeing it again whatever else is true.

= 2 fire. FATIGUING

= 1 or none. A catalogue ad has no hook, so only four of the five can ever fire on it.

Creative — what to make next

Winners are the 2 creative ads that beat the account's 5.32x over the last 7 days on at least 3 purchases. Losers are the 0 that did not. No catalogue on either side.

The brief • give this to the editor

- ✓ Brief 3 new videos off judy story sale. It is the highest revenue ad that beats the account (13.13x vs 5.32x).
- ✓ The winners are not separated by hook, hold, CTR or CVR. They are winning on the offer and the audience, not the edit. Re-run the same creative to a fresh audience before you reshoot.
- ✓ Change the body, the angle and the opening line. Do not re-upload the same video with a new name, Meta will treat it as the same creative and it will fatigue on the same curve.

General observations

The account in plain sentences, with the money attached to each one.

General observations

what a media buyer would say out loud after reading the rest

The move was the BUDGET. Revenue +33.3k EGP: +774.4k of it is the budget you set, -741.0k is the account itself. Efficiency got worse (ROAS 105.83x to 5.14x).

No ad is fatigued or saturated. Nothing in the account is being shown to the same people over and over, so frequency is not what is holding you back.

Biggest opportunity: judy story sale. It returns 13.13x against the account's 5.32x at frequency 1.38. Take it from 170 to 196 a day: that is 26 more spend for about 335 more revenue a day.

The money is in the wrong audience. New audience returns 5.67x but only takes 56% of spend, while Existing customers returns 0.00x on 5% of it. Move budget from the second to the first.

Margin and LTV are unknown from ad data. Nothing above assumes them.

3-day memo. Last 3 days vs the 3 before.

Audience is Meta's own breakdown by audience segment.
