The ads — keep or kill

An ad has no budget field. It gets kept, refreshed, or switched off.

Good ads — keep them running

the big number is yesterday. the small one under it is the 7 day benchmark. the VERDICT is always a 7 day call — one day never kills an ad

New audience earns more budget: it returns 6.23x against the account's 4.81x at frequency 1.31, so it still has room. Existing customers gives 0.00x at frequency 1.92.

Expected +278 revenue / day at the SAME total budget.

Creative fatigue and hook rate

The week tells you if it is decaying. Today tells you if it is an anomaly. Both are on every row.

Read the two together. A red weekly Δ with a NORMAL today is a real slide. A green week with a BELOW BAND today is one bad day, not a dying ad, and killing it would be a mistake.

📖

The five fatigue tests · this is the whole rulebook

1. frequency over 3.0	the same people are seeing it again
2. outbound CTR down over 15%	they are reacting to it less than they did
3. CPM up over 15%	the auction is charging more to keep showing it
4. hook rate down over 15%	the first 3 seconds stopped stopping them
5. CPP up over 20%	each purchase now costs more than it did

= 3 or more of the five fire and FATIGUED frequency is over 3.0, OR frequency is over 4.0 with 2 firing.

= frequency over 4.0 on its own: the same people are seeing it again whatever else is true.

= 2 fire. FATIGUING

= 1 or none. A catalogue ad has no hook, so only four of the five can ever fire on it.

Winners are the 2 creative ads that beat the account's 5.32x over the last 7 days on at least 3 purchases. Losers are the 0 that did not. No catalogue on either side.

The brief • give this to the editor

- ✓ Brief 3 new videos off judy story sale. It is the highest revenue ad that beats the account (13.13x vs 5.32x).
- ✓ The winners are not separated by hook, hold, CTR or CVR. They are winning on the offer and the audience, not the edit. Re-run the same creative to a fresh audience before you reshoot.
- ✓ Change the body, the angle and the opening line. Do not re-upload the same video with a new name, Meta will treat it as the same creative and it will fatigue on the same curve.

General observations

The account in plain sentences, with the money attached to each one.

General observations

what a media buyer would say out loud after reading the rest

The move was the BUDGET. Revenue +10.6k EGP: +12.1k of it is the budget you set, -1,553 is the account itself. Efficiency got worse (ROAS 5.13x to 4.81x).

No ad is fatigued or saturated. Nothing in the account is being shown to the same people over and over, so frequency is not what is holding you back.

Biggest opportunity: judy story sale. It returns 13.13x against the account's 5.32x at frequency 1.38. Take it from 170 to 196 a day: that is 26 more spend for about 335 more revenue a day.

The money is in the wrong audience. New audience returns 6.23x but only takes 54% of spend, while Existing customers returns 0.00x on 5% of it. Move budget from the second to the first.

Margin and LTV are unknown from ad data. Nothing above assumes them.
