The ads — keep or kill

An ad has no budget field. It gets kept, refreshed, or switched off.

Good ads — keep them running

the big number is last 3 days. the small one under it is the 7 day benchmark. the VERDICT is always a 7 day call — one day never kills an ad

Read the two together. A red weekly Δ with a NORMAL today is a real slide. A green week with a BELOW BAND today is one bad day, not a dying ad, and killing it would be a mistake.

The five fatigue tests · this is the whole rulebook

1. frequency over 3.0	the same people are seeing it again
2. outbound CTR down over 15%	they are reacting to it less than they did
3. CPM up over 15%	the auction is charging more to keep showing it
4. hook rate down over 15%	the first 3 seconds stopped stopping them
5. CPP up over 20%	each purchase now costs more than it did

= 3 or more of the five fire and FATIGUED frequency is over 3.0, OR frequency is over 4.0 with 2 firing.

= frequency over 4.0 on its own: the same people are seeing it again whatever else is true.

= 2 fire. FATIGUING

= 1 or none. A catalogue ad has no hook, so only four of the five can ever fire on it.

Winners are the 3 creative ads that beat the account's 2.78x over the last 7 days on at least 3 purchases. Losers are the 4 that did not. No catalogue on either side.

The brief · give this to the editor

- Brief 3 new videos off Scaling baby outfits. It is the highest revenue ad that beats the account (6.13x vs 2.78x).
- Keep the first 3 seconds. Winners hook 14.1% of impressions, the losers hook 10.9%. That gap is the whole difference, everything after it is downstream.
- The CTA is earning the click: winners run 3.29% outbound CTR against 1.84% on the losers. Reuse the same offer wording.
- Winners convert 1.84% of clicks, losers 1.08%. Send the new cuts to the same landing page.
- Change the body, the angle and the opening line. Do not re-upload the same video with a new name, Meta will treat it as the same creative and it will fatigue on the same curve.

General observations

The account in plain sentences, with the money attached to each one.

General observations

what a media buyer would say out loud after reading the rest

The move was the BUDGET. Revenue -80 EGP: -17.1k of it is the budget you set, +17.0k is the account itself. Efficiency improved (ROAS 2.33x to 3.48x).

No ad is fatigued or saturated. Nothing in the account is being shown to the same people over and over, so frequency is not what is holding you back.

Biggest opportunity: Big personality catalogue 06-28. It returns 7.34x against the account's 2.78x at frequency 2.18. Take it from 583 to 700 a day: that is 117 more spend for about 856 more revenue a day.

The money is in the wrong audience. Existing customers returns 8.59x but only takes 6% of spend, while Engaged returns 1.94x on 33% of it. Move budget from the second to the first.

Margin and LTV are unknown from ad data. Nothing above assumes them.
