Read the two together. A red weekly Δ with a NORMAL today is a real slide. A green week with a BELOW BAND today is one bad day, not a dying ad, and killing it would be a mistake.

The five fatigue tests · this is the whole rulebook

1. frequency over 3.0	the same people are seeing it again
2. outbound CTR down over 15%	they are reacting to it less than they did
3. CPM up over 15%	the auction is charging more to keep showing it
4. hook rate down over 15%	the first 3 seconds stopped stopping them
5. CPP up over 20%	each purchase now costs more than it did

= 3 or more of the five fire and FATIGUED frequency is over 3.0, OR frequency is over 4.0 with 2 firing.

= frequency over 4.0 on its own: the same people are seeing it again whatever else is true.

= 2 fire. FATIGUING

= 1 or none. A catalogue ad has no hook, so only four of the five can ever fire on it.

 Winners are the 1 creative ads that beat the account's 2.62x over the last 7 days on at least 3 purchases. Losers are the 1 that did not. No catalogue on either side.

 The brief · give this to the editor

-  Brief 3 new videos off Scaling baby outfits. It is the highest revenue ad that beats the account (4.99x vs 2.62x).
-  Keep the first 3 seconds. Winners hook 17.4% of impressions, the losers hook 10.2%. That gap is the whole difference, everything after it is downstream.
-  The CTA is earning the click: winners run 3.78% outbound CTR against 2.15% on the losers. Reuse the same offer wording.
-  Change the body, the angle and the opening line. Do not re-upload the same video with a new name, Meta will treat it as the same creative and it will fatigue on the same curve.

General observations

The account in plain sentences, with the money attached to each one.

General observations

what a media buyer would say out loud after reading the rest

The move was the BUDGET. Revenue -9,050 EGP: -9,796 of it is the budget you set, +746 is the account itself. Efficiency improved (ROAS 2.46x to 2.54x).

No ad is fatigued or saturated. Nothing in the account is being shown to the same people over and over, so frequency is not what is holding you back.

Biggest opportunity: Big personality catalogue 06-28. It returns 3.57x against the account's 2.62x at frequency 2.13. Take it from 661 to 793 a day: that is 132 more spend for about 472 more revenue a day.

The money is in the wrong audience. Existing customers returns 14.33x but only takes 7% of spend, while New audience returns 0.84x on 60% of it. Move budget from the second to the first.

Margin and LTV are unknown from ad data. Nothing above assumes them.
