

# Performance analysis: what happened

A clear view of performance changes, what drove them, and which audience moved.

## Performance overview

REVENUE

125.3k EGP

Previous: 106.8k EGP

+17%

SPEND

33.9k EGP

Previous: 33.0k EGP

+3%

ROAS

3.70x

Previous: 3.24x

(3.24x → 3.70x)

+14%

✓

This is real performance, not budget. Spend was roughly flat +3% but ROAS went 3.24x to 3.70x, and that is worth 15.6k EGP of the move.

## Detailed metrics matrix

every number, and what it was in the previous period

was 12.1%

-5%

## Revenue growth attribution

these two add to the revenue change exactly. there is no third thing

### Revenue +18.5k EGP

(change from the previous period)

- Budget impact

+2,970 EGP | 16% of move

Spend: 33.0k → 33.9k (+3%)
- Account performance impact

+15.6k EGP | 84% of move

ROAS: 3.24x → 3.70x (+14%)

★ The move is mostly the ACCOUNT. This is real performance, not money.

## Audience segments

spend and attributed revenue vs the previous period

# What caused it

Each one split into the budget you changed and the performance that changed, and every metric carries its own previous period.

## Both sides of the move

every ad, not just the ones shown

|                                      |                                              |                                              |

PASS ROAS below 60% of the account (2.08x) (1.80x) · PASS CPP above the account (506) (650) · PASS at least 5 purchases of evidence (8)

☰ The criteria · this is the whole rulebook

SCALE

• ROAS above the account

• CPP below the account

• frequency under 2.5

• at least 5 purchases

• spend over 1,500

HEADROOM

• ROAS above the account

• frequency under 2.0

• CPP stable or better

• no decline in the last 7 days

SATURATED

• frequency over 4.0

• outbound CTR falling

• CPM rising

• CPP rising

CUT

• ROAS below 60% of the account

• CPP above the account

• at least 5 purchases of evidence

An ad must pass EVERY line of a label to get it. SATURATED needs 3 of 4 plus frequency over 4.0. CATALOGUE and DPA are never counted as creative winners.

# The budget — on the ad sets

Budgets move on ad sets. Every ad set ranked against the account, above and below.

The budget board, per day

ad set level, because that is where the budget field is

Previous: the bar every ad set is judged against

You cannot set a budget on an ad. Every number below is an AD SET daily budget, taken from Meta. Where the campaign is CBO the ad set has no budget field and the change is made on the campaign, named on the row.

| These beat the account's 3.47x. Raise the budget on the ones with frequency headroom; the ones already fatiguing need fresh creative, not more money.                   |                                |                           |                               |                               |                               |                            |                              |                            |                                       |

3-day memo. Last 3 days vs the 3 before.

Audience is Meta's own breakdown by audience segment.

# The ads — keep or kill

An ad has no budget field. It gets kept, refreshed, or switched off.

## Good ads — keep them running

the big number is last 3 days. the small one under it is the 7 day benchmark. the VERDICT is always a 7 day call — one day never kills an ad

| AD                                                                                                                                                                         | SPEND                                      | ROAS                                       | CPP                                 | CVR                                       | ATC                                     | FREQ                                  | PURCHASES            | WHAT TO DO                                                                                          |

The budget move · in EGP per day, not in percentage points

MOVE

1,616 / day

FROM

New audience (3.45x)

TO

Existing customers (5.14x)

Existing customers earns more budget: it returns 5.14x against the account's 3.70x at frequency 2.65, so it still has room. New audience gives 3.45x at frequency 1.24.

Expected +2,731 revenue / day at the SAME total budget.

3-day memo. Last 3 days vs the 3 before.

Audience is Meta's own breakdown by audience segment.

# Creative fatigue and hook rate

The week tells you if it is decaying. Today tells you if it is an anomaly. Both are on every row.

## The state of the creative

of 29 ads with real money behind them

FATIGUED

0

FATIGUING

6

BEHIND TIRING CREATIVE

3,032 EGP / day

Hook rate is 3 second views over impressions and only means anything on VIDEO. The account's video ads run at 16.0%. Catalogue and image ads show n/a.

## Every ad with real money behind it

Δ = THE WEEK: this ad's last 7 days vs the 7 before · TODAY = that same ad against its own last 7 days

|                                                                                                                                                                  |                     |                    |                                   |                                      |                                  |                                   |                                                                                                 |                                   |

Read the two together. A red weekly Δ with a NORMAL today is a real slide. A green week with a BELOW BAND today is one bad day, not a dying ad, and killing it would be a mistake.

## The five fatigue tests · this is the whole rulebook

|                               |                                                 |
|-------------------------------|-------------------------------------------------|
| 1. frequency over 3.0         | the same people are seeing it again             |
| 2. outbound CTR down over 15% | they are reacting to it less than they did      |
| 3. CPM up over 15%            | the auction is charging more to keep showing it |
| 4. hook rate down over 15%    | the first 3 seconds stopped stopping them       |
| 5. CPP up over 20%            | each purchase now costs more than it did        |

= 3 or more of the five fire and  
FATIGUED frequency is over 3.0, OR frequency is over 4.0 with 2 firing.

= frequency over 4.0 on its own: the  
same people are seeing it again  
whatever else is true.

= 2  
FATIGUING fire.

= 1 or none. A catalogue ad has no  
hook, so only four of the five can  
ever fire on it.

# Creative — what to make next

How many you launched, how many won, the criteria, the winners by name, and what is burning out.

## ☆ How many creatives to launch

counted on ads you actually LAUNCHED in the last 30 days

LAUNCHED · 30D

201

Previous: new ads created in the last 30 days

JUDGED

15

Previous: 186 still gathering data

WINNERS

4

Previous: 4 cleared 4.52x · 3 only matched the account

HIT RATE

27%

Previous: launch 4 to get 1 · 12 to get 3

**THE CRITERIA, IN FULL.** An ad is **JUDGED** once it has spent at least 1,500 EGP and taken at least 5 purchases inside the 30 days. It is a **WINNER** only if its ROAS is at least 19% above the account average — the account ran 3.77x over those 30 days, so the winner bar is 4.52x. Beating the account by 1% is not a winner, it is a rounding error, and 3 ad(s) landed in exactly that gap this month. Catalogue and DPA are excluded from both sides: a product feed is not a creative you shot.

**At a 27% hit rate you must launch 4 new creatives for the next winner and 12 for three. You launched 201 in the last 30 days.**

## 🎯 The winning creatives — last 30 days, by name

cleared 4.52x (19% above the account's 3.77x) on 1,500+ spend and 5+ purchases

| CREATIVE · LAST 30 DAYS                                                                                                                                            | SPEND                                       | REVENUE                                       | ROAS                                       | CPP                                     | AOV                                       | CVR                                       | ATC                                       | CPMR                                     | FREQ                                      |

**Winners are the 8 creative ads that beat the account's 3.47x over the last 7 days on at least 3 purchases. Losers are the 5 that did not. No catalogue on either side.**

## 📝 The brief · give this to the editor

- Brief 3 new videos off NEW ARRIVALS NEW VIDEOW CUTSWIMWEAR BIRDNEST. It is the highest revenue ad that beats the account (5.08x vs 3.47x).
- Hold the middle. Winners keep 32% of the 3 second viewers to a thruplay, losers keep 26%. Cut the setup, get to the product faster.
- Winners convert 2.65% of clicks, losers 1.55%. Send the new cuts to the same landing page.
- Change the body, the angle and the opening line. Do not re-upload the same video with a new name, Meta will treat it as the same creative and it will fatigue on the same curve.

## 🕒 Creatives that are burning out — replace these first

these are the slots your new creatives are for

|                                                                                                                                                                                         |                             |                            |                                                     |                                                        |                                                    |                                                     |

# General observations

The account in plain sentences, with the money attached to each one.

 **General observations**

what a media buyer would say out loud after reading the rest

-  **The move was REAL PERFORMANCE. Revenue +18.5k EGP: +2,970 of it is the budget you set, +15.6k is the account itself. Efficiency improved (ROAS 3.24x to 3.70x).**
-  **No ad is fatigued or saturated. Nothing in the account is being shown to the same people over and over, so frequency is not what is holding you back.**
-  **Biggest opportunity: NEW ARRIVALS NEW VIDEO W CUTSWIMWEAR BIR.... It returns 5.08x against the account's 3.47x at frequency 1.46. Take it from 865 to 1,038 a day: that is 173 more spend for about 879 more revenue a day.**
-  **Biggest leak: beforeafter\_feed\_tulle banafsegy egypti.... 1.80x against the account's 3.47x. Cutting it frees 743 a day; redeployed at the account rate that is +1,240 a day net.**
-  **The money is in the wrong audience. Existing customers returns 5.14x but only takes 5% of spend, while New audience returns 3.45x on 73% of it. Move budget from the second to the first.**
-  **Creative supply. You launched 201 ads in 30 days, 15 got enough data to judge, 4 beat the account. That is a 27% hit rate, so the next winner costs about 4 launches. Anything less than that is not a creative plan.**

 **Margin and LTV are unknown from ad data. Nothing above assumes them.**
