✓ These beat the account's 3.08x. Raise the budget on the ones with frequency headroom; the ones already fatiguing need fresh creative, not more money.

The ads — keep or kill

An ad has no budget field. It gets kept, refreshed, or switched off.

Good ads — keep them running

the big number is last 3 days. the small one under it is the 7 day benchmark. the VERDICT is always a 7 day call — one day never kills an ad

Read the two together. A red weekly Δ with a NORMAL today is a real slide. A green week with a BELOW BAND today is one bad day, not a dying ad, and killing it would be a mistake.

The five fatigue tests · this is the whole rulebook

1. frequency over 3.0	the same people are seeing it again
2. outbound CTR down over 15%	they are reacting to it less than they did
3. CPM up over 15%	the auction is charging more to keep showing it
4. hook rate down over 15%	the first 3 seconds stopped stopping them
5. CPP up over 20%	each purchase now costs more than it did

= 3 or more of the five fire and FATIGUED frequency is over 3.0, OR frequency is over 4.0 with 2 firing.

= frequency over 4.0 on its own: the same people are seeing it again whatever else is true.

= 2 fire. FATIGUING

= 1 or none. A catalogue ad has no hook, so only four of the five can ever fire on it.

3-day memo. Last 3 days vs the 3 before.

Audience is Meta's own breakdown by audience segment.

Creative — what to make next

How many you launched, how many won, the criteria, the winners by name, and what is burning out.

WINNERS

0

Previous: 0 cleared 3.90x · 1 only matched the account

🎯

HIT RATE

2%

Previous: launch 50 to get 1 · 150 to get 3

THE CRITERIA, IN FULL. An ad is **JUDGED** once it has spent at least 1,500 EGP and taken at least 5 purchases inside the 30 days. It is a **WINNER** only if its ROAS is at least 19% above the account average — the account ran 3.25x over those 30 days, so the winner bar is 3.90x. Beating the account by 1% is not a winner, it is a rounding error, and 1 ad(s) landed in exactly that gap this month. Catalogue and DPA are excluded from both sides: a product feed is not a creative you shot.

⚠️ **At a 2% hit rate you must launch 50 new creatives for the next winner and 150 for three. You launched 10 in the last 30 days.**

↓

🕒 **Winners are the 5 creative ads that beat the account's 3.08x over the last 7 days on at least 3 purchases. Losers are the 4 that did not. No catalogue on either side.**

✎

The brief · give this to the editor

- ✓ Brief 3 new videos off Drive full video islam studio boy swimrobes. It is the highest revenue ad that beats the account (3.86x vs 3.08x).
- ✓ Keep the first 3 seconds. Winners hook 18.1% of impressions, the losers hook 12.0%. That gap is the whole difference, everything after it is downstream.
- ✓ The CTA is earning the click: winners run 2.88% outbound CTR against 2.50% on the losers. Reuse the same offer wording.
- ✓ Winners convert 2.98% of clicks, losers 1.22%. Send the new cuts to the same landing page.
- ✓ Change the body, the angle and the opening line. Do not re-upload the same video with a new name, Meta will treat it as the same creative and it will fatigue on the same curve.

General observations

The account in plain sentences, with the money attached to each one.

General observations

what a media buyer would say out loud after reading the rest

① The move was the BUDGET. Revenue +7,740 EGP: +16.7k of it is the budget you set, -9,001 is the account itself. Efficiency got worse (ROAS 3.11x to 2.68x).

✓ No ad is fatigued or saturated. Nothing in the account is being shown to the same people over and over, so frequency is not what is holding you back.

↑ Biggest opportunity: Scaling baby outfits. It returns 6.32x against the account's 3.08x at frequency 1.47. Take it from 411 to 494 a day: that is 82 more spend for about 520 more revenue a day.

⊖ The money is in the wrong audience. Existing customers returns 6.44x but only takes 5% of spend, while New audience returns 2.23x on 64% of it. Move budget from the second to the first.

☆ Creative supply. You launched 10 ads in 30 days, 5 got enough data to judge, 0 beat the account. That is a 2% hit rate, so the next winner costs about 50 launches. Anything less than that is not a creative plan.

① Margin and LTV are unknown from ad data. Nothing above assumes them.

3-day memo. Last 3 days vs the 3 before.

Audience is Meta's own breakdown by audience segment.
