Read the two together. A red weekly Δ with a NORMAL today is a real slide. A green week with a BELOW BAND today is one bad day, not a dying ad, and killing it would be a mistake.

The five fatigue tests · this is the whole rulebook

1. frequency over 3.0	the same people are seeing it again
2. outbound CTR down over 15%	they are reacting to it less than they did
3. CPM up over 15%	the auction is charging more to keep showing it
4. hook rate down over 15%	the first 3 seconds stopped stopping them
5. CPP up over 20%	each purchase now costs more than it did

= 3 or more of the five fire and FATIGUED frequency is over 3.0, OR frequency is over 4.0 with 2 firing. SATURATED = frequency over 4.0 on its own: the same people are seeing it again whatever else is true. = 2 fire. FATIGUING = 1 or none. A catalogue ad has no hook, so only four of the five can ever fire on it.

Creative — what to make next

How many you launched, how many won, the criteria, the winners by name, and what is burning out.

☆

How many creatives to launch

counted on ads you actually LAUNCHED in the last 30 days

✎

LAUNCHED · 30D

116

📄

JUDGED

5

Previous: 111 still gathering data

☆

WINNERS

2

Previous: 3 lost to the account

🎯

HIT RATE

40%

Previous: launch 3 to get 1 · 8 to get 3

📖

THE CRITERIA. An ad is JUDGED once it has spent at least 1,500 EGP and taken at least 5 purchases inside the 30 days. It is a WINNER if its ROAS beats the account's 3.74x over those same 30 days. Catalogue and DPA are excluded from both sides: a product feed is not a creative you shot.

⚠️

At a 40% hit rate you must launch 3 new creatives for the next winner and 8 for three. You launched 116 in the last 30 days.

🎯

🗣️

Winners are the 2 creative ads that beat the account's 3.93x over the last 7 days on at least 3 purchases. Losers are the 3 that did not. No catalogue on either side.

✎

The brief · give this to the editor

✓

Brief 3 new videos off BABY BOY OUTFITS. It is the highest revenue ad that beats the account (7.82x vs 3.93x).

✓

Keep the first 3 seconds. Winners hook 19.2% of impressions, the losers hook 16.6%. That gap is the whole difference, everything after it is downstream.

✓

The CTA is earning the click: winners run 3.63% outbound CTR against 2.04% on the losers. Reuse the same offer wording.

✓

Winners convert 3.27% of clicks, losers 1.90%. Send the new cuts to the same landing page.

✓

Change the body, the angle and the opening line. Do not re-upload the same video with a new name, Meta will treat it as the same creative and it will fatigue on the same curve.

📅 30-day memo. Last 30 days vs the 30 before. Posted on the first of the month.

👥 Audience is Meta's own breakdown by audience segment.

General observations

The account in plain sentences, with the money attached to each one.

General observations

what a media buyer would say out loud after reading the rest

No ad is fatigued or saturated. Nothing in the account is being shown to the same people over and over, so frequency is not what is holding you back.

Biggest opportunity: BABY BOY OUTFITS. It returns 7.82x against the account's 3.93x at frequency 1.79. Take it from 819 to 982 a day: that is 164 more spend for about 1,280 more revenue a day.

The money is in the wrong audience. Existing customers returns 6.54x but only takes 8% of spend, while New audience returns 2.92x on 70% of it. Move budget from the second to the first.

Creative supply. You launched 116 ads in 30 days, 5 got enough data to judge, 2 beat the account. That is a 40% hit rate, so the next winner costs about 3 launches. Anything less than that is not a creative plan.

Margin and LTV are unknown from ad data. Nothing above assumes them.
