Read the two together. A red weekly Δ with a NORMAL today is a real slide. A green week with a BELOW BAND today is one bad day, not a dying ad, and killing it would be a mistake.

The five fatigue tests · this is the whole rulebook

1. frequency over 3.0	the same people are seeing it again
2. outbound CTR down over 15%	they are reacting to it less than they did
3. CPM up over 15%	the auction is charging more to keep showing it
4. hook rate down over 15%	the first 3 seconds stopped stopping them
5. CPP up over 20%	each purchase now costs more than it did

= 3 or more of the five fire and FATIGUED frequency is over 3.0, OR frequency is over 4.0 with 2 firing.

= frequency over 4.0 on its own: the same people are seeing it again whatever else is true.

= 2 fire. FATIGUING

= 1 or none. A catalogue ad has no hook, so only four of the five can ever fire on it.

THE CRITERIA, IN FULL. An ad is JUDGED once it has spent at least 1,500 EGP and taken at least 5 purchases inside the 30 days. It is a WINNER only if its ROAS is at least 19% above the account average — the account ran 3.81x over those 30 days, so the winner bar is 4.57x. Beating the account by 1% is not a winner, it is a rounding error, and 1 ad(s) landed in exactly that gap this month. Catalogue and DPA are excluded from both sides: a product feed is not a creative you shot.

At a 2% hit rate you must launch 50 new creatives for the next winner and 150 for three. You launched 181 in the last 30 days.

The losing creatives — last 30 days

Winners are the 12 creative ads that beat the account's 3.25x over the last 7 days on at least 3 purchases. Losers are the 24 that did not. No catalogue on either side.

The brief · give this to the editor

- Brief 3 new videos off all products retention. It is the highest revenue ad that beats the account (6.86x vs 3.25x).
- Hold the middle. Winners keep 35% of the 3 second viewers to a thruplay, losers keep 27%. Cut the setup, get to the product faster.
- Winners convert 1.10% of clicks, losers 0.43%. Send the new cuts to the same landing page.
- Change the body, the angle and the opening line. Do not re-upload the same video with a new name, Meta will treat it as the same creative and it will fatigue on the same curve.

General observations

what a media buyer would say out loud after reading the rest

The move was the BUDGET. Revenue -39.5k EGP: -110.8k of it is the budget you set, +71.3k is the account itself. Efficiency improved (ROAS 3.19x to 3.98x).

2 ads are fatigued or saturated and they are carrying 3,739 EGP a day. The worst is all products retention at frequency 10.87. Refresh the creative or the audience; more budget on a saturated ad buys repeats, not customers.

Biggest opportunity: lblb summer MOA one take. It returns 9.23x against the account's 3.25x at frequency 2.05. Take it from 322 to 387 a day: that is 64 more spend for about 595 more revenue a day.

Biggest leak: nesma the mommy eats strollers. 0.64x against the account's 3.25x. Cutting it frees 2,663 a day; redeployed at the account rate that is +6,951 a day net.

The money is in the wrong audience. Existing customers returns 8.27x but only takes 12% of spend, while Engaged returns 3.39x on 48% of it. Move budget from the second to the first.

Creative supply. You launched 181 ads in 30 days, 13 got enough data to judge, 0 beat the account. That is a 2% hit rate, so the next winner costs about 50 launches. Anything less than that is not a creative plan.

Margin and LTV are unknown from ad data. Nothing above assumes them.
